Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

STATEMENT: The entire delay in filing the required notice of a foreign or international filing from the due date for the required notice until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

**COMMUNICATION IN SUPPORT OF PETITION TO REVIVE AN  
UNINTENTIONALLY ABANDONED APPLICATION**

Sir:

A Notice of Allowance dated January 8, 2008 was issued by the United States Patent and Trademark Office (PTO) in connection with this application.

In compliance with the standard procedure maintained by applicant's attorneys of record for applications in which a notice of allowance has been received, the file maintained by applicant's attorneys of record was reviewed to identify outstanding issues prior to submitting payment of the issue fee. The review of the file maintained by applicant's attorneys of record for this application revealed the following:

- (1) a Request and Certification Under 35 U.S.C. 122(b)(2)(B)(i) [requesting that the application not be published] was filed concurrently with this application on March 22, 2001; and
- (2) a counterpart foreign application (JPAP 2002-59406) was filed with the Japanese Patent Office on March 5, 2002.

Applicant's attorneys of record for this U.S. application were and are not involved in the

Dkt. No. 2271/61807

filing and prosecution of the foreign application filed with the Japanese Patent Office on March 5, 2002.

However, since applicant did not notify the Director of such foreign filing within forty-five days after the foreign application was filed, this U.S. application became unintentionally abandoned.

Pursuant to 37 C.F.R. §1.137(f), this Petition is being submitted to revive the above-identified application under 37 C.F.R. §1.137(b).

A petition under 37 C.F.R. §1.137(b) must be accompanied by:

- (1) the required reply, unless it has been previously filed;
- (2) the petition fee set forth in 37 C.F.R. §1.17(m);
- (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional; and
- (4) any terminal disclaimer (and fee as set forth in §120(d)) required pursuant to 37 C.F.R. §1.137 (c) for a utility application filed before June 8, 1995.

This Petition is being submitted concurrently with notice of the counterpart foreign application (JPAP 2002-59406) filed with the Japanese Patent Office on March 5, 2002.

The fee for a Petition under 37 C.F.R. §1.137(b) as set forth in 37 C.F.R. §1.17(m) is \$1,540.00 and the Patent Office is hereby authorized to charge such fee, as well as any other required fees in connection with this Petition, to Deposit Account No. 03-3125.

The entire delay in filing the required reply until the filing of a grantable petition pursuant to 37 C.F.R. §1.137(b), was unintentional.

Because this application was filed after June 8, 1995, 37 C.F.R. §1.137(c) does not require any terminal disclaimer to be filed.

Applicant earnestly solicits an expeditious revival of the subject application.

Respectfully submitted,
